- ☐ 1

The following question will ask you about the Bayesian Network shown in lecture, reproduced below.

Which of the following sentences is true? *

1/1

- ☐ Assuming we know there is track maintenance, whether or not there is rain does not affect the probability that the train is on time.
- ☐ Assuming we know the train is on time, whether or not there is rain affects the probability that the appointment is attended.
- ☐ Assuming we know there is rain, whether or not there is track maintenance does not affect the probability that the train is on time.

- ☐ Assuming we know there is track maintenance, whether or not there is rain does not affect the probability that the appointment is attended.
- ☒ Assuming we know the train is on time, whether or not there is track maintenance does not affect the probability that the appointment is attended.

Two factories — Factory A and Factory B — design batteries to be used ^{*1/1} in mobile phones. Factory A produces 60% of all batteries, and Factory B produces the other 40%. 2% of Factory A's batteries have defects, and 4% of Factory B's batteries have defects. What is the probability that a battery is both made by Factory A and defective?
